Last Wish, Memories Forever

Ambulance Wish Queensland Gala Fundraiser 2026

Saturday, 20th June. Grandview Room Hillstone, St Lucia
ambulancewishqld.org.au

Palliative Care Queensland invites your organisation to be a key sponsor for Ambulance Wish Queensland's signature event of the year.

Your sponsorship will directly contribute to fulfilling final wishes and supporting compassionate end-of-life experiences for Queenslanders in the Brisbane region and beyond.

Ambulance Wish Queensland (AWQ), the signature program of Palliative Care Queensland, shows that even in life's final moments, compassion can transform end-of-life experiences. As we look toward 2026 and beyond, your support ensures we can continue to fulfil last wishes for Queenslanders and create memories and a legacy that families can carry with them forever.

The 2026 AWQ Gala Dinner brings together industry leaders, community champions and the families who inspire our work every day. This event will provide an opportunity for your organisation to align with a cause that truly matters.

Your sponsorship will help us drive understanding and support for Queenslanders living with life-limiting illnesses and their carers. Our ambition is to build and educate caring and connected communities, make high-quality, culturally respectful, person-centred care accessible to everyone, and advocate for better palliative care services throughout the state.

We're forecasting exponential growth across 2026 and 2027, across our four AWQ hubs, with wish enquiries rising year on year - a clear indication of the community need and growing demand for the program. Our hope is to also grow our fleet in regional Queensland.

With your help, we can ensure that every Queenslander experiences dignity, comfort and connection through their palliative journey and at the end of life and help build a Queensland where compassion is the expectation, not the exception.

Ambulance Wish Queensland

Our Inspiration

Inspired by two Hervey Bay paramedics who took a woman cared for by her palliative care team to her favourite beach, Ambulance Wish Queensland is the first program of its kind in Australia.

About Us

Ambulance Wish Queensland is a community-focused program that demonstrates the power of compassionate palliative and end-of-life care in action. Our purpose is to support Queenslanders living with a life-limiting illness to experience moments that truly matter - returning home, reconnecting with loved ones, or visiting a place filled with meaning. Each wish brings together trained staff, dedicated volunteers and local communities to honour a person's final wish with dignity and respect.

In doing so, AWQ not only provides comfort at the end of life, but also showcases what good palliative care looks like: connection, compassion, cultural safety and community standing beside people when they need it most.

Denis's Wish was to sit around
a bonfire with his friends and
family.

A significant moment celebrating their love over 43 years. Robyn's Wish was to renew her vows with her husband at Whale Park in Wynnum – Our 200th Wish fulfilled since our beginnings in 2019. 200 Wishes is a significant milestone for us and it's all thanks to the wonderful support of Queenslanders helping Queenslanders. Robyn and her husband, David, have spent some incredible years together, recently celebrating their 43rd anniversary at the end of January. Family is incredibly important to her, which is why, surrounded by 60 of her nearest and dearest, Robyn wanted to renew her vows and bring everyone in on the love these two have for each other. With her family and friends watching on, Robyn and David renewed their vows and, sealing it with a kiss, Robyn and David etched their love into the hearts of everyone in attendance. A perfect day capturing the love, the life, and the friendship they have built together.

"It was an absolute privilege to be able to join the Ambulance Wish team in supporting Patrick with his life long dream to meet the Brisbane Broncos. This is a memory that will last a life time for his wife and our team at the Institute of Urban Indigenous Health. Being able to share in that moment was a privilege and something that will stick with me for the rest of my life. Patrick and his wife were able to have a memory together that wasn't defined by him being sick and is a memory months after his death his wife and his family will still talk about."

Your organisation very kindly leapt into action and provided my brother with an amazing experience as his life was very quickly coming to an end. I've received the photos of the day your team took Scot from the hospital to his home and allowed him to be with his best mate, his dog Buddy, for one last time.

It was obvious that your volunteers had gone to considerable trouble to make the day very special for him – something that no one else could do – and I am very grateful his last wish was met with such a generous heart.

From what I hear, your team excelled in every possible way, and I would like my gratitude to be passed on to each of them. I understand that they do something like this because of the heart they have for others – but I know it takes a special sort of person to be able to genuinely give that energy, and comfort, with smile, to someone who knows they are at the end of their life.

Thanks again to you & your team, Rowen Brittany & Marissa – they are amazing!!!

My God doesn't want anyone to die, but we will all face death sooner or later. I'm very grateful that your team have made it that little bit easier for Scot. Thank you once again

*Allen (brother)
